

December 7, 2017

Irving Residents and Business Owners:

Effective November 1, 2017, as assigned by Insurance Services Office Inc. (ISO), all homes and/or businesses located within the city limits of Irving, Texas, and jurisdictional response area served by the Irving Fire Department are designated as ISO-1, Public Protection Classification (PPC). **This letter may serve as official notification for Irving residents and business owners to share with their respective property insurance company.** The ISO-1 designation may yield varying discounts to Irving residents and business owners. Your insurance provider may require receipt of an official ISO-1 designation letter to credit any applicable discounts.

We want our residents and business community to know that their safety and quality of life are our top concerns. When companies look to Irving, we want them to feel confident knowing that not only will they receive a discount on their insurance rate with our ISO classification, but that we continuously invest in departments that will directly affect them.

Sincerely,

Victor L. Conley

Fire Chief

Irving Fire Department
